

Tech Rider For Úna Ní Fhlannagáin, Irish Harp And Voice

- I play standing up, and therefore don't need a chair.
- I need around 1m square of space to perform.
- I have 2 x AudioTechnica Pro 45 cardioid condenser microphones that are suspended within the soundbox of the harp (Details here: https://www.audio-technica.com/cms/wired_mics/bd750dd0662d571c/index.html)
- As they are condenser microphones, I require phantom power.
- I also need a microphone for vocal and a tall boom stand for vocal mic.
